About This Brochure

This document provides detailed information about Mixvoip Cyber Assistance, a comprehensive cyber insurance solution designed specifically for small and medium-sized enterprises in Luxembourg and the Greater Region.

1,862	73%	24/7	72h
attacks/week in Luxembourg	of German SMEs attacked	emergency support	GDPR notification deadline

What We Cover

Mixvoip Cyber Assistance provides comprehensive protection across six key areas, ensuring your business is protected before, during, and after a cyber incident.

🛡️ **Technical Emergency Response**
24/7 IT assistance, forensic analysis, and system recovery support

⚖️ **Legal & Regulatory Support**
GDPR compliance, CNPD notifications, and liability defense

💼 **Business Interruption**
Lost revenue coverage and system restoration costs

🔒 **Cyber Extortion**
Ransomware response, negotiation, and recovery

🏦 **Cybercrime & Fraud**
Wire transfer fraud, identity theft, and phone hacking

📚 **Prevention & Training**
Fit4Cybersecurity assessment and employee awareness

Eligibility Requirements

- ✓ Company registered in Luxembourg or Greater Region
- ✓ 1-250 employees (SME classification)
- ✓ Valid Fit4Cybersecurity assessment (score 50+)
- ✓ Mixvoip customer (preferred) or standalone policy
- ✓ No previous unresolved cyber incidents

Technical Emergency Response

When a cyber incident occurs, every minute counts. Our 24/7 technical emergency response team is ready to help you contain, investigate, and recover from any cyber threat.

24/7 IT Assistance

- Immediate incident response hotline
- Remote technical support
- On-site assistance when needed
- System isolation and containment

Forensic Analysis

- Digital evidence collection
- Attack vector identification
- Malware analysis
- Detailed incident reports

📋 **EXAMPLE SCENARIO**

Situation: A Luxembourg accounting firm discovers ransomware has encrypted all client files on a Friday evening.
Response: Within 30 minutes of calling the emergency hotline, a Mixvoip incident response team begins remote analysis. By Saturday morning, the attack vector is identified, systems are isolated, and recovery from backups begins. The firm is fully operational by Monday.

Legal & Regulatory Support

Navigate the complex legal landscape of data breaches with expert guidance. We help you meet regulatory obligations and defend against liability claims.

GDPR & CNPD Compliance

Under GDPR, data breaches must be reported to the CNPD (Commission Nationale pour la Protection des Données) within 72 hours. Our legal team ensures you meet all notification requirements.

What's Covered

- Legal consultation fees
- Regulatory notification assistance
- Defense against sanctions
- Third-party liability claims
- Customer notification costs (up to €10,000)

📋 EXAMPLE SCENARIO

Situation: A medical practice discovers patient records were accessed by unauthorized parties due to a phishing attack.
Response: Mixvoip's legal team assists with CNPD notification, prepares patient notification letters, and coordinates with healthcare regulatory bodies. Defense counsel is provided when affected patients file complaints.

Business Interruption & System Damage

When cyber incidents disrupt your operations, the financial impact can be devastating. Our coverage helps you recover lost revenue and restore your systems quickly.

Lost Revenue Coverage

We compensate for income lost during system downtime, calculated based on your average daily revenue. Coverage begins after a 12-hour waiting period and continues for up to 30 days.

System Restoration

- ✓ Hardware replacement costs
- ✓ Software reinstallation
- ✓ Data recovery services
- ✓ Cloud migration assistance
- ✓ Backup restoration
- ✓ Security hardening

📋 **EXAMPLE SCENARIO**

Situation: An e-commerce company's website is taken offline by a DDoS attack during Black Friday weekend.
Response: Mixvoip's technical team works with the hosting provider to mitigate the attack. Business interruption coverage compensates for €35,000 in lost sales over the 48-hour outage period.

Cyber Extortion & Ransomware

Ransomware attacks have increased by 300% in recent years. Our comprehensive coverage helps you respond effectively without paying criminals.

300%	€150K	21	60%
increase in ransomware	average ransom demand	days avg recovery	SMEs close in 6 months

What's Covered

- ✓ Professional ransom negotiation
- ✓ Cryptocurrency payment facilitation
- ✓ Decryption key acquisition
- ✓ Data recovery specialists
- ✓ System restoration costs
- ✓ Business interruption losses
- ✓ Reputation management
- ✓ Post-incident security audit

📋 EXAMPLE SCENARIO

Situation: A law firm receives a ransomware demand for €200,000 in Bitcoin. All case files are encrypted.
Response: Mixvoip's cyber extortion team engages with the attackers while forensic specialists work to recover data from backups. The ransom is negotiated down to €45,000, but ultimately data is recovered without payment. Total cost covered: €78,000.

Cybercrime & Fraud Protection

From wire transfer fraud to phone system hacking, cybercriminals use sophisticated techniques to steal from businesses. Our coverage protects against financial losses from various forms of cyber fraud.

Wire Transfer Fraud (CEO Fraud)

Business Email Compromise (BEC) attacks trick employees into transferring funds to criminal accounts. Coverage includes losses from fraudulent wire transfers.

Identity Theft & Impersonation

When criminals impersonate your company or executives to defraud customers or partners, we cover investigation costs and liability claims.

Phone System Hacking (Toll Fraud)

VoIP and PBX systems can be compromised to make expensive international calls. Coverage includes fraudulent call charges.

Additional Coverage

- ✓ Payment Card Fraud - PCI-DSS fines and card replacement costs
- ✓ Credential Theft - Account takeover and unauthorized access
- ✓ Phishing Losses - Financial losses from phishing attacks
- ✓ Vendor Fraud - Fake invoice and supplier scams

📋 EXAMPLE SCENARIO

Situation: An employee receives an urgent email appearing to be from the CEO requesting a €45,000 wire transfer. The email is spoofed and the money goes to criminals.
Response: Mixvoip's fraud team works with banks to attempt fund recovery. €12,000 is recovered, and the remaining €33,000 loss is covered by the policy.

Prevention & Training

The best cyber defense starts with prevention. Mixvoip Cyber Assistance includes proactive security measures and employee training to reduce your risk profile.

Fit4Cybersecurity Assessment

All policyholders receive a comprehensive Fit4Cybersecurity assessment, developed in partnership with Luxembourg's Ministry of the Economy. This evaluation identifies vulnerabilities and provides actionable recommendations.

Assessment Includes

- Security posture evaluation
- Risk identification
- Compliance gap analysis
- Prioritized recommendations

Employee Training

- Phishing awareness
- Password best practices
- Social engineering defense
- Incident reporting procedures

Continuous Improvement

Policyholders who improve their Fit4Cybersecurity score receive premium discounts. Annual reassessments ensure your security measures evolve with the threat landscape.

Coverage Limits & Pricing

Choose the plan that fits your business needs. All plans include 24/7 emergency support and Fit4Cybersecurity assessment.

Coverage	Basic	Pro	Enterprise
Annual Aggregate Limit	€50,000	€150,000	€250,000
Technical Emergency Response	€15,000	€40,000	€75,000
Legal & Regulatory	€10,000	€30,000	€50,000
Business Interruption	€15,000	€50,000	€75,000
Cyber Extortion	€10,000	€30,000	€50,000
Cybercrime & Fraud	€10,000	€30,000	€50,000
Employee Training	Basic	Advanced	Premium
Deductible	None*	None*	None*
Monthly Premium (from)	Free**	€2/user	Custom

* No deductible when subscribing online. ** Basic plan is free for existing Mixvoip customers. Pro plan starts at €2/user/month. Contact us for Enterprise pricing.

💡 **RECOMMENDED PLAN**

For most SMEs with 10-50 employees, the **Pro plan** offers the best balance of coverage and value. It includes enhanced business interruption coverage and advanced employee training.

Main Exclusions

Like all insurance policies, Mixvoip Cyber Assistance has certain exclusions. Understanding these helps ensure you have appropriate expectations.

Not Covered

- ✕ **Pre-existing incidents:** Cyber events that occurred before the policy start date
- ✕ **Intentional acts:** Losses caused deliberately by the insured or their employees
- ✕ **War and terrorism:** State-sponsored attacks or acts of war
- ✕ **Infrastructure failures:** General internet or power grid outages
- ✕ **Unpatched systems:** Losses from known vulnerabilities not patched within 30 days
- ✕ **Cryptocurrency holdings:** Direct theft of cryptocurrency assets
- ✕ **Bodily injury:** Physical harm resulting from cyber incidents
- ✕ **Contractual penalties:** Penalties from breach of contract (unless GDPR-related)
- ✕ **Intellectual property:** Loss of trade secrets or proprietary information value
- ✕ **Reputational damage:** Long-term brand value diminution

Conditions & Limitations

Waiting Periods: Business interruption: 12 hours | System damage: 24 hours

Maximum Periods: Business interruption: 30 days | Extended coverage: 60 days

⚠️ IMPORTANT NOTE

Maintaining a valid Fit4Cybersecurity assessment and implementing recommended security measures is a condition of coverage. Failure to maintain minimum security standards may result in claim denial.
